UIPATH LEADER IN RPA IS GUEST OF THE SECOND EDITION TECH FOR GOOD SUMMIT/ELYSEE

DANIEL DINES FOUNDER & CEO ATTENDING

Paris, Washington DC, 20.05.2019, 00:21 Time

USPA NEWS - UiPath guest of the 2nd edition is Guest of the second edition of Tech for Good Summit at the Elysée, and Vivatech 2019 at the Panel chaired by the French President Macron at Vivatech launching on Thursday May16th at Porte de Versailles. Daniel Dines, founder and CEO of UiPath, the leader in the automation of robotic process (RPA), is received today at the Elysee, for the second edition of Tech For Good. He participates in the workshop led by Dara Khosrowshahi of Uber and Stéphane Richard of Orange on the future of work, a central topic for UiPath, which is a major player in digital transformation in business. The Presidential event, Tech for Good Summit at Elysee was organized on the eve of VivaTech, to bring together the CEOs of big companies in global technology. The second edition of this event aims to show how new technologies can have a positive impact on our societies and savings. Daniel Dines participates in the workshop on the future of work, which aims to promote lifelong learning life through technology platforms and create a think tank to share data between companies. UiPath has been actively involved in the employment revolution since its creation in 2004

THE PHILOSOPHY OF UIPATH IS TO MAKE SOFTWARE ROBOTS BASED ON « COMPUTER VISION »

Daniel Dines participates in the workshop on the future of work, which aims to promote lifelong learning life through technology platforms and create a think tank to share data between companies. UiPath has been actively involved in the employment revolution since its creation in 2004.

His philosophy is to make software robots, based on "Computer Vision" and Intelligence

Artificial, as common as personal computers at the workplace in order to hand over

the human being at the heart of each company's goal. Indeed, decision makers, wherever they are in the world, supplement the impact of their collaborators with software robots, accelerating the digital transformation of their business and allowing their employees to devote their time to tasks with higher added value.

UIPATH ACADEMIC ALLIANCE PROGRAM TO CATCH UP WITH EMERGING TECHNOLOGIES

To help current and future employees cope with emerging technologies and adapt to the digital transformation of companies, UiPath is committed to continuing its investments for training and strengthens its Academic Alliance training program. With this program, UiPath collaborates with the grandes écoles and universities to create an ecosystem knowledge of RPPs and shaping the future of work through a wide range of community. Modules are specially designed for 4 types of audience and 4 objectives: the sensitization of children and young people, the training of students and professors from universities and schools, re-orientation of retraining persons and easier access to technology people away from employment. So we participate in the change of skills of today and co-build those of tomorrow in a virtuous circle. France has been identified as a priority country for the launch of these programs, and will be eligible for all modules of the UiPath Academic Alliance. UiPath is committed to training more 100,000 students in France in the next three years through training modules in

Free APRs, through partnerships to be set up with universities and grandes écoles

ABOUT UIPATH-----

UiPath is the leader of "Automation First" - defending the concept of a virtual assistant for every employee at the heart of the business, offering free and open training and collaboration and allowing robots to learn new skills through AI and Machine Learning. UiPath is committed to digital democratization by bringing the skills of the digital age to more than a million people. Its RPA platform has already automated millions of tasks repetitive and time-consuming for businesses and government organizations around the world, thereby improving the productivity, customer experience and well-being of employees. Recently named to 6th rank of companies where employees are happiest by Comparably (in the United States) and the 11th largest company with the best corporate culture, UiPath is today one of the fastest growing and fastest growing AI software vendors highest valuation in the world.
